Printed Name: Robert L. Whritenour, Jr.	
Title: Town Administrator	
Date: September 1/ 2007	

Part II. Self-Assessment

The Town of Falmouth has been moving forward with the NPDES Phase II requirements.

The Department of Public Works is currently in the process of a department wide review of operations, staffing and funding. An outside matrix report has been submitted in the Spring of 2007, and is currently under a second review process. The final matrix report is scheduled for submittal in October of 2007.

The Engineering department has filled an engineering position that will be in charge of implementing the Phase II requirements.

The Highway garage has been completed with regards to the Phase II requirements. The following is a list of improvements:

- A salt shed has been constructed.
- A covered storage area for sanders and snow removal equipment has been constructed.
- A wash bay for all vehicles is now in operation.
- Two "Elgin Pelican" 3-wheel street cleaners have been purchased. One in 2000, and another in 2004. Due to the loss of two equipment operators, a routine street cleaning schedule has been limited. Street cleaning is performed in the Spring after snow removal operations, and in the Fall after the hurricane and nor easter season. The hiring of new employees will be contingent upon the final Departmental study submittal as mentioned above.
- A catch basin cleaning truck was also purchased. Again, the loss of two equipment operators limits a routine schedule. Catch basin cleaning is performed on an as-needed basis at this point. The hiring of new employees will be contingent upon the final Departmental study submittal as mentioned above.

Implementation of a Public Participation Program is anticipated to be in operation by the end of permit period #5. The Mapping Program is nearly complete. The paper maps have been incorporated into the Town wide GIS mapping. Over the past two years the GIS personnel have located nearly all the Town maintained outlets with their GPS equipment. Engineering staff will need to locate some outlets not readily identified.

The Town received a copy of "Massachusetts Estuaries Project -Nitrogen Loading thresholds for Great Pond, Green Pond, and Bournes Pond".

Regulatory and housekeeping issues are under construction and review.

Part III. Summary of Minimum Control Measures

1. Public Education and Outreach

BMP ID#	BMP description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) - Permit Year 4 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 5
1-1	Educational Flyer	Admin, and DPW	Flyer prepared and distributed	Posters developed.	Develop flyers. Distribute flyers.
Revised					
1-2	Annual Public Hearing	Admin.	Meetings held per schedule	Meeting not scheduled and held.	Annual meeting to be scheduled and held.
Revised					note.
1-3	Posting Of Maps	Engineering	Map prepared and displayed	Update map.	Finalize map and display revised version.
